If you or someone you know tested positive for COVID-19 AND have fully recovered from the illness, please contact SunCoast Blood Centers to schedule a plasma donation. Your plasma now contains antibodies to fight SARS-CoV-2 and possibly save the life of someone critically ill with the virus.

If you think you had COVID-19...
...but were not tested for the virus you may be eligible to donate investigational convalescent plasma. SunCoast will run a serological test to determine if you had past exposure to the virus and if you can donate. **THIS IS NOT A DIAGNOSTIC TEST FOR COVID-19. WE NEED RECOVERED PATIENTS ONLY.**

---

**COVID-19 AND CONVALESCENT PLASMA**

**TO BE ELIGIBLE YOU MUST:**
1. Be completely symptom free
2. Provide written documentation of a positive COVID-19 test result
3. Meet FDA donor eligibility guidelines
4. You must call or email for an appointment

SunCoast Blood Centers is ready to provide convalescent plasma to hospitals as an investigational new treatment for use in patients with life-threatening COVID-19 infections. You can help save a life, posing no risk to you by donating.

For additional information or to schedule an appointment call:
941-993-8119
Monday - Friday
8:00 a.m. until 5:00 p.m.
or email covid19@suncoastblood.org

Please contact us today.
See back for SunCoast Donor Centers locations.
SunCoast Blood Centers is working with local health organizations to coordinate the collection and use of COVID-19 investigational convalescent plasma. Early indications look promising for the treatment of the most critically ill patients.
